West Lafayette, IN 47906 | 929-404-7521 | makamats@purdue.edu | www.linkedin.com/in/minakamatsu

EDUCATION

Purdue University, College of Engineering

West Lafayette, IN

Relevant Coursework:

May 2030

Calculus II, Engineering Design & Data Analysis, General Chemistry, The Data Mine

HS GPA: 4.09/4.0

LEADERSHIP AND INVOLVEMENT

Coast-2-Coast VEX Robotics

Long Island, NY

CAD Designer / Builder / Scouting Team Member

February 2024 – January 2026

- Won the 2025 VEX Robotics New York Southern State Championship
- Reached the division semifinals at the VEX Robotics World Championship
- Designed robot components and assemblies using CAD while collaborating with programming subteams
- Contributed to robot construction, competition strategy, scouting, and iterative design improvements

Purdue Collegiate Drone Racing Team

West Lafayette, IN

FPV Drone Racer - Collegiate Drone Racing Association (CDRA)

August 2026 - Present

- Consistently ranked 3rd-fastest on Purdue team standings since the start of the season
- Accumulated 100+ hours of FPV drone racing simulator practice, developing high-speed flight, racing-line optimization, throttle control, and precision maneuvering skills
- Collaborate with pilots on equipment setup, race strategy, practice organization, and management of RF interference between FPV and DJI systems

Purdue LaunchPad - Selective Entrepreneurship Program

West Lafayette, IN

LaunchPad Mentee

September 2026 - Present

- Selected for competitive entrepreneurship program with an approximately 30% acceptance rate
- Developing a software concept addressing scheduling and flight-time coordination problems observed in collegiate drone racing
- Conducting customer discovery, validating user needs, and prototyping scheduling workflows

PROFESSIONAL EXPERIENCE

Independent Web Development

Long Island, NY

Freelance Web Developer

July 2026 - Present

- Designed and deployed websites for local automotive repair businesses to improve online presence and generate customer leads
- Built mobile-responsive websites with quote-request forms and automated customer contact workflows
- Managed hosting, deployment, maintenance, and client communication

Phenomenal Vinyl - Automotive Wrap & Customization Company

Long Island, NY

Intern

March 2024 - January 2025

- Supported company operations and customer-facing events, including the New York International Auto Show
- Assisted with automotive displays, event preparation, and business operations in a professional automotive environment
- Gained experience in client interaction, event execution, and small-business operations

TECHNICAL SKILLS & INTERESTS

- CAD: SolidWorks, Fusion 360, Onshape
- Web Development: Responsive Web Development, Vercel, Website Deployment, Lead-Generation Forms
- Engineering Software: Cantera, SDToolbox
- Technical: Mechanical Design, Rapid Prototyping, Robotics, Combustion Analysis, FPV Drone Systems
- Interests: UAVs, Autonomous Systems, Aerospace Propulsion, Robotics, Entrepreneurship, FPV Racing
